SUMMARY

Associate Software Engineer with comprehensive full-stack development expertise, specializing in React, Node.js, Nest.js, and modern database solutions. Currently developing and maintaining enterprise-level cinema management systems including POS applications, self-service kiosks, and payment terminal integrations. Proven track record in delivering scalable, high-performance applications with enhanced user experiences in the cinema industry.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, SQL, HTML, CSS
Frameworks	React.js, Next.js, React Native, Node.js, Express.js, Nest.js, Redux, Tailwind CSS, Bootstrap, SCSS
Databases	MongoDB, PostgreSQL, MySQL, SQLite
DevOps & Cloud	Docker, Kubernetes, CI/CD Pipelines, Google Cloud Platform (GCP), DevSecOps
Payment Gateways	Cardpointe, Windcave, Clover-UK, O-pay, Dojo
Tools	Git, GitHub, RESTful APIs, JWT Authentication, Figma

EXPERIENCE

LayoutIndex (Pvt) Ltd Nov 2024 – Present
Associate Software Engineer Colombo, Sri Lanka

- Leading development & maintenance of **CINEpoint POS Application** using React.js, featuring ticket sales, concession management, voucher sales, private hire bookings, reservations, and credit memo processing with secure authentication and responsive design.
- Engineering & maintaining **CINEstand Kiosk Software** with React and TypeScript, enabling customers to purchase tickets, select seats, view movie details, and buy concessions through intuitive interfaces.
- Developed robust **middle-server architecture** connecting POS and kiosk systems with multiple payment terminals (Cardpointe, Windcave, Clover-UK, O-pay, Dojo), ensuring secure transaction processing and implementing updates for new payment methods.
- Enhanced system performance through continuous maintenance of responsive interfaces, real-time seat selection algorithms, movie information displays, and promotional content management.

LayoutIndex (Pvt) Ltd May 2024 – Nov 2024
Intern Full-Stack Developer Colombo, Sri Lanka

- Built a complete **e-commerce platform** using Nest.js backend, Next.js frontend, and PostgreSQL, implementing user authentication, product management, shopping cart functionality, and order processing with modern DevOps practices.
- Transitioned to cinema management solutions development, contributing to CINEpoint POS and CINEstand kiosk applications using React.js and gaining experience with payment system integrations.
- Applied containerization with **Docker**, established **CI/CD pipelines**, and utilized cloud deployment strategies for production-ready applications.
- Developed RESTful APIs with comprehensive documentation, implemented secure JWT authentication mechanisms, and optimized database queries for enhanced performance.

PROJECTS

Dream Spot Studio – Digital Agency Website Revamp | *Next.js, SCSS* 2025

- Redesigned and rebuilt a professional digital agency website with a refreshed UI, updated content, and improved component architecture using Next.js and SCSS modules.

- Delivered a modern, multi-page layout covering services, portfolio, testimonials, and contact sections with a fully responsive design.

COCOTECH – Smart Coconut Farm Management System | *React Native, Python, Node.js, MongoDB, IoT* 2024 – 2025

- Developed an IoT-integrated smart farming solution addressing critical challenges in Sri Lanka's coconut industry using machine learning and computer vision; implemented yield prediction, automated copra fungal detection, intelligent irrigation scheduling, and predictive drying optimization.
- Collaborated with the **Coconut Research Institute of Sri Lanka** for field validation; received official recommendation from Coconut Producers Society representing **2,500+ farmers**.

Microservice & Cloud Computing – Auth Service | *Node.js, TypeScript, Docker, Kubernetes, GCP* 2025

- Designed and deployed a secure, containerized authentication microservice for an e-commerce platform using DevSecOps practices on **Google Cloud Platform**, featuring JWT auth, role-based access, and Snyk security scanning.
- Containerized with Docker, deployed on Kubernetes via **GCP Cloud Run** with fully automated CI/CD pipelines.

The Shop – E-Commerce Platform | *React.js, Node.js, Express.js, TypeScript, MongoDB* 2024

- Built a comprehensive MERN-stack shopping platform with user management, product catalog, order processing, review system, shopping cart, payment integration, and automated email notifications using Cloudinary for image management.

EduCode – Educational Programming Environment | *React.js, Node.js, Express.js, MongoDB* 2023

- Developed an online code editor with **voice recognition** for real-time voice command transcription, secure JWT-based authentication, and a distinctive coding environment with advanced features.

DevLink – Mobile Job Application Platform | *React Native, Node.js, TypeScript, MongoDB* 2023

- Contributed to a mobile platform focused on appointment scheduling, enhancing user and administrator experiences through streamlined job application and communication management.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) July 2021 – July 2025
BSc (Hons) in Information Technology – Specialized in Software Engineering Malabe, Sri Lanka

- **Coursework**: OOP, Enterprise Applications Development, Software Engineering Process & Quality Management, Application Frameworks, Software Architecture, Mobile App Development, Databases, Data Structures & Algorithms, Machine Learning, Image Processing, Distributed Systems

SOFT SKILLS

Communication	Clear and concise communicator across technical and non-technical stakeholders
Problem Solving	Analytical thinker with a structured approach to debugging and system design
Adaptability	Quick learner comfortable picking up new stacks, tools, and project domains
